

Tower Pro

Lightweight, Portable LED Lighting Tower

The Tower Pro is an easy to deploy tripod mounted area/scene light. It provides 360° of light from its six foldable and lockable light heads which have anti-glare diffused lenses providing wide spread, shadow free light, with a daylight colour temperature of 6500K. It can be powered from a 230V or 110V supply, it is supplied with 10M of rubber sheathed abrasion resistant cable. The robust aluminium tripod extends the light head to 3.5 metres and is extremely stable. One person can easily carry and deploy the system in under one minutes.
